

2006-2007

May Meeting Notice

Minnesota Geotechnical Society

“Geogrid Subgrade Stabilization”

Presented By: James Howley, PE – Tensar International.

Mr. Howley's presentation will consist of the theory and practice of Geogrid design applications including subgrade improvement for soft soils, and compressible soil applications. Mr. Howley will also discuss pavement design applications for pavement base reinforcement and extension of pavement design life for roadways and parking lots. Software applications for the design of base reinforcement and Geogrid reinforcement which allow comparison to unreinforced pavement designs will be introduced.

Date: Tuesday, May 1, 2007

Location: Grandma's Restaurant
522 Lake Avenue South
Duluth, MN
